## **DETAILED ACTION**

1. This office action is in response to the preliminary amendment and response to restriction filed on 6/17/02 in paper number 6. Applicants have cancelled claims 1-72 and have added new claims 73-115. Applicants elect claims 73-95 drawn to Group I (polypeptides of the initial restriction). In addition, claim 111 drawn to Group III (composition containing the polypeptide) will be rejoined with Group I. The Applicants traversal regarding the various primer sequences are moot because the Office will withdraw the election requirement of SEQ ID NOs: 1-38 because they include the SEQ ID NOs of the primers.

However, the Office will restrict between the multiple sequence substitutions described in the human interferon β variants. This will not be considered as species election because of the unduly burdensome search required for the multiple sequence substitutions present in the claims. The searches for each of the sequences are not coextensive and would be a burden on the Office to search all of the groups. Therefore, the restriction requirement is deemed proper and made FINAL. For the purpose of examination the Office will search the substitution Q49N+ Q51T indicated by the Applicant. In addition, substitution Q49N+ Q51S indicated in claim 73(a) will also be searched.

2. The drawings have been approved by the draftsperson.

## Specification

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

**Art Unit: 1647** 

.....

4. This application is in condition for allowance except for the following formal matters:

Applicant needs to cancel unelected inventions to put this case in condition for allowance. Prosecution on the merits is closed in accordance with the practice under *Ex* parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
